#9 INPUT VALIDATION
 The current app doesn't do all the input validations required to get all the marks for product
 quality. Please update your controllers to do input validation and return the corresponding
 errors (error codes or using exceptions)
- ☐ **B4PTDPNKA** 2017-04-24 09:27:24
 [thejanasatan/rmitseprocesstools] Issue created by [thejanasatan](#) (assigned to [Dilani112](#))
#10 Bookings don't show up on "Users appointments"
 The bookings made using the system don't show up when the user queries his bookings.
 Please fix this issue. You may have to look into the way that we make appointments and see if
 all the necessary information is being properly queried by the function that returns the list of
 appointments
